

## Global Warming Solutions?

[http://perso.orange.fr/annie.gwynn/global\\_warming.htm](http://perso.orange.fr/annie.gwynn/global_warming.htm)

### TASKS:

#### Group A

Produce a table showing what can be done at home and in our every day life to help reduce global warming.

Go from the easiest solution to the most difficult.

What we can do	Consequences	Easy? difficult?

#### Group B

In group produce a table showing some alternative energies to fossil fuels giving for each one its advantages and drawbacks.

Which one would you choose as the best alternative to fossil fuels?

Alternative energy	Pros	cons

#### **Tool box :**

**We should +bv .....instead of + Ving ....**

**If we +V present .....we will +bv .....**

**If we + preterit .....we would + bv .....**

**On the one hand ... but on the other hand ....**

**....however ....**

**Although .....**
